

For Immediate Release 29/09/09

Luke Ellery Wins Victorian Formula Ford Fiesta Series

When it's cold and wet the best shine and that is what CAMS Rising Star, Luke Ellery, did in the final round of the Victorian Formula Ford Series title decider at Phillip Island.

After a difficult qualifying session that saw a broken starter motor and gearbox troubles, Ellery charged through the field to record a respectable 4th fastest time.

After a reasonable start in the dry, Ellery took the lead in race 1. The heavens opened and with the hail coming down Luke kept a cool head and managed to maintain his lead and win the race, securing the 2009 series.

With two more races to go, Ellery fought hard in trying conditions with the result being a further two wins.

"It was really wet with visibility at sometimes less than 60 meters making it difficult to push hard. Despite the conditions I was pleased to keep the car in one piece and on the road", said Ellery.

With the Victorian State Series wrapped up, Ellery has his sights set on the final round of the Australian Formula Ford Championship on the Gold Coast. After a great result at the last round at Phillip Island with a season best 2nd place in race 3, the young Melbournian is confident that his current good form will continue.

"I am aiming at finishing the year on a high with a good result. The car has been strong and I have shown that I can keep up with the front runners", said Ellery.

With Ellery contemplating a move offshore in 2010 to further develop his racing career, finishing the year strongly is the aim.
